

Bullet 1000® RB: The new strong rear light from Kellermann!

Kellermann presents distinctive rear and brake light in classic bullet design

The Kellermann GmbH (www.kellermann-online.com), experts for premium motorcycle accessories from Aachen in Germany, now presents with the Bullet 1000® RB a new and very distinctive rear and brake light.

With this, the successful Bullet family will be extended with a rear and brake light only for the first time. The Bullet range already offered many options for interesting combinations with indicators (Extreme), indicators and position lights (PL) and 3in1 combinations with indicator, rear and brake light (DF).

But with the Bullet 1000® RB rear and brake light now completely new combinations are possible in the Kellermann world. For example, bikers redesigning the tail of the motorcycle can now combine the new distinctive Bullet 1000® RB with the Bullet 1000® or the super compact Atto® indicators.

The well-known Kellermann illumination power and brilliance of this rear and brake light keeps the traffic at a safe distance.

The complete electronics of the Bullet 1000® RB are in the casing, this indicator can be plugged into the 12 volt net directly.

Bullet 1000® RB: The new distinctive rear and brake light from Kellermann!

Bullet 1000® RB features:
